A screenshot of the Dr. Cleaner app interface on a Mac. The app window has a dark header with a green checkmark icon and the text "Dr. Cleaner optimizes your Mac". Below the header, there are three main sections: "CPU Usage" showing a 13.0% usage with a line graph; "Junk Files" showing 1.25 GB with a circular progress indicator and a "Clean" button; and "Memory Usage" showing 4.06 GB with a circular progress indicator and an "Optimize" button. At the bottom left, there is a "Network Usage" section showing 0 B/s and 2.67 KB/s with a line graph. At the bottom right, there is a "System Optimizer" button. The top right corner of the app window shows system status icons: a blue "MEMORY 2.03GB" indicator, a speaker icon, a flag icon, and a "100%" battery icon. Below the app window, the text "The #1 Mac Optimization App" is displayed in a large, white font, followed by the subtitle "The only App can optimize memory and clean up disk." in a smaller, white font.

Dr. Cleaner optimizes your Mac

BlueStacks Uncommonly, BlueStacks is one of the most popular yet free emulators Being a complete Android package on both Windows & Mac, it offers way more functions than most of the commercial user needs.. If you are covered under the recommended system configuration, it is a pleasant experience.. The unavailability of the MacOS & turns off the Apple users, it is not a big deal as the developers claiming this as the Android emulator for Windows PC, not the Mac.
