Release Date: 25 Sep, 2015

English

cataegis the white wind badge. cataegis the white wind. cataegis the white wind steam

Gooooood retro game :). Gave me aids. This is horrible stay as far away as possible. Stupid game .!. Oh man ! Them's retro game. This game is absolutely amazing! Lots of fun slicing action, awesome music and nes style art. And so many possible endings as well leading to different upgades that can change the game's play difficulty. I will admit that I did go through some tough raging at first, but it was a good one cause of the challenge of the game.. It's pretty meh. Hard as balls too.. nice game !
