i like. smash 6 is looking great. Fun game, it's only 50 cents right now, me and my friends had fun playing this. Make sure to check it out. I hope in the future there will be more maps and such.. this is super smash bros if smash bros was broken free and just was not fun 10/10. It's incredibly fun, and infuriating, now my friends hate me D:. 1. Buy this game for you and your friends. 2. Join up and beat theu2665u2665u2665u2665u2665u2665out of eachother with baguettes and katanas, 3. ????? 4.. Fun party game to play with your friends, downside is that it could use more Geckos :(
