Shocking Bad, dont get it folks. Shocking Bad, dont get it folks. This game is not awesome, and I can say that after how long I've played it, the gas is used too fast, after so long it becomes tedious fixing potholes in the road, or struggling to find what gravel you need because the developers were too lazy to mark them! Save your \$10 and buy yourself something useful! I'm not happy at all, quite frankly disappointed, I'm getting a refund ud83dudc4eud83cudffb. This game looks like it is 10 years old and has bugs all over the place (e.g. what do you do when you get stuck on the guard rail which happens all the time!) Refunded..
